

**ENERCON**

**May 26 – 29, 2014**

DURING THE NEFTEGAZ'2014 INTERNATIONAL EXHIBITION, EXPOCENTRE WILL ALSO HOST THE 4th INTERNATIONAL CONFERENCE ON INNOVATIVE DEVELOPMENT IN THE OIL AND GAS INDUSTRY — ENERCON'2014.

The Conference is organized by the Russian Chamber of Commerce and Industry and Expocentre ZAO.

Traditionally the Conference is supported by the Russian Ministry of Natural Resources and Ecology; Russian Ministry of Energy; Russian State Duma Committee on Natural Resources, Environmental Management and Ecology; Russian State Duma Committee on Energy; and Moscow City Government.

We invite professionals of oil, gas and allied industries to contribute to the development of the fuel and energy industry. During the conference take the opportunity to put forward suggestions about the industry's innovative development to the Programme Committee.

Following ENERCON'2014, the Programme Committee of the Conference will prepare a resolution and forward it to the Government of the Russian Federation.

**FOR PARTICIPATION, PLEASE CONTACT THE ENERCON EXECUTIVE COMMITTEE.**

(sq m net)

**Growth in number of exhibitors**

HIGH BUSINESS POTENTIAL OF EXHIBITORS AND GREAT REPRESENTATION OF PROFESSIONAL VISITORS OFFER FAVORABLE CONDITIONS FOR FRUITFUL INTERACTION AND BUSINESS DEVELOPMENT

**80%**  
of participants  
reached their goals

**99%** of visitors are industry professionals

**76%** of exhibitors are permanent participants

**87%** of exhibitors are positive that Neftegaz opens up new opportunities for growth and development

\* Data of 2012

**Expocentre offers additional services for the Neftegaz'2014 participants**

- A free seminar on efficient participation in the exhibition
- **On-line** MatchMaking system
- **On-line** invitations for professional visitors
- Business Centre services: business talks in comfortable environment
- Individual approach to every customer

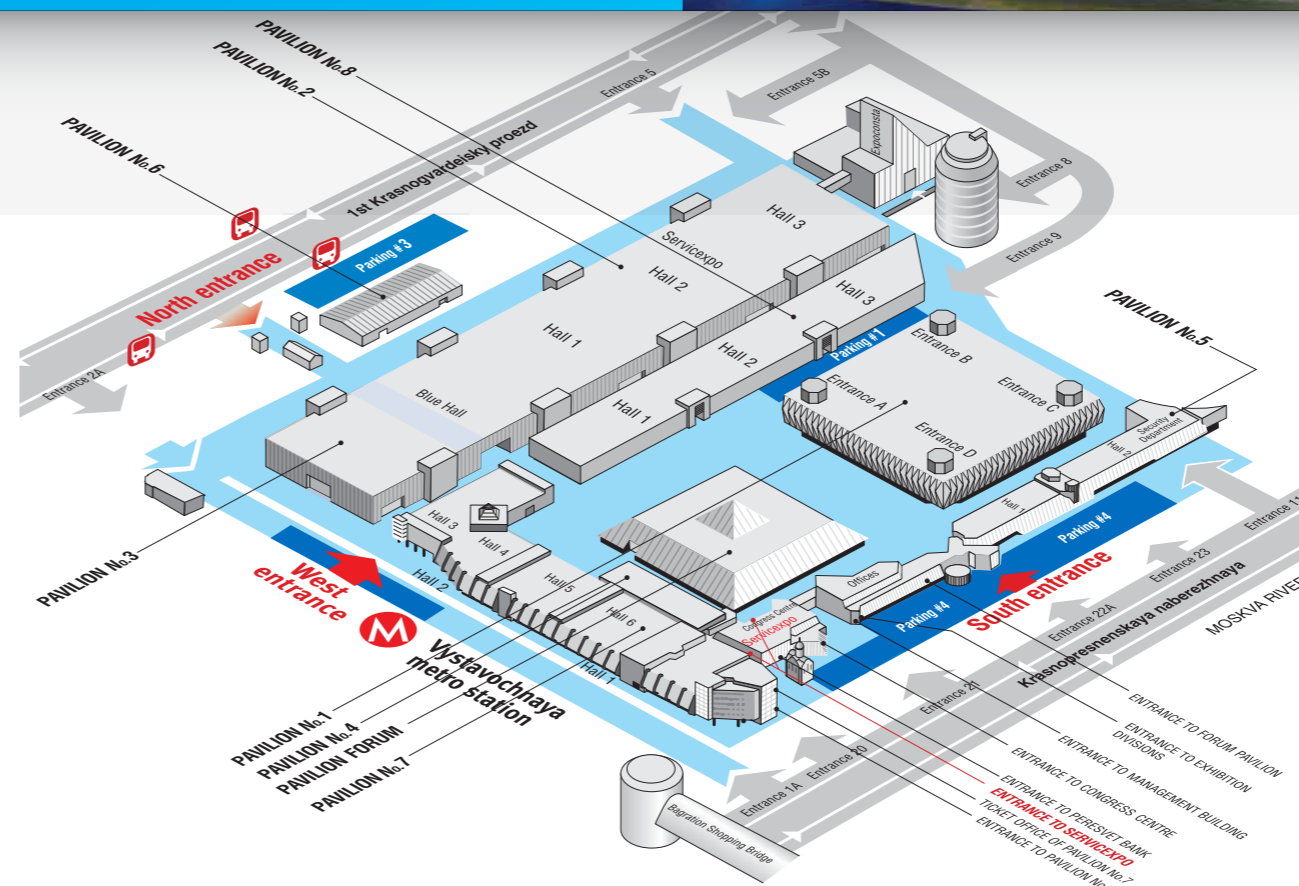

**Dates**

**Running: May 26—29, 2014**

**Venue**

Expocentre Fairgrounds,  
Pavilions Nos. 1, 2, 8, Forum and open-air sites

**Topics**

- Geological and geophysical research. Oil and gas exploration, integrated assessment of oil-and-gas bearing areas and local objects, estimation of reserves
- Onshore and offshore oil and gas well construction. Horizontal wells drilling. Equipment and technologies
- Oil and gas field development. Methods of bed stimulation for enhanced oil recovery. Equipment and technologies
- Oil and gas gathering and treatment
- Oil, gas and oil products transportation and storage. Technique and technology for pipeline construction and maintenance. Tanks and tank farms
- Pumps, compressor equipment, pneumatics, driving gear, engines for oil and gas industries
- Locking and regulating fittings
- Pipes
- Oil and gas processing and petrochemical industry. Equipment and technologies
- Construction of facilities for oil and gas industries including offshore units. Construction machinery
- Power and electrotechnical equipment for oil and gas industries. Cables. Welding equipment
- Chemical reagents, additives and materials for oil and gas producing and oil refining industries, for oil and oil products transportation
- Automated control systems and telemechanization of drilling, production, gathering, transportation, storage and processing of oil and gas. Instrumentation. Means of measurement assurance
- Equipment and pipeline corrosion prevention. Corrosion inhibitors. Units and insulating materials
- Ecology: research, technologies, equipment, instrumentation. Advanced systems of environmental monitoring. Processing waste utilization and treatment
- Labour protection, safety systems and fire safety equipment
- Laboratory equipment and analytical instrumentation, furniture. Mobile laboratories
- Mobile production buildings and cabins
- Oil, gas, oil products delivery and sale. Filling stations
- Economic research and analysis of oil and gas industry development. Industry management in new economic conditions, issues of legal and financial regulations
- Research and design. Project appraisal
- Dataware and software
- Scientific and technical literature
