Statistics of 2022

The Neftegaz conference programme is an efficient platform to network with interested audiences

55% of the Neftegaz visitors attended the events of the conference programme. Take advantage of the unique opportunity to speak to an industry audience, share your expert opinion and highlight your company's achievements.

Exhibitor feedback

Natalia Kutsik,
Director of Communication
Department at Transneft

"Neftegaz has been taking place for two decades. Transneft has been its participant for many years. From time to time our stand is awarded diplomas. We are very pleased that this year we have been awarded a diploma for our stand's individual expressive design, which really reveals our company's industry focus. We are very pleased to be part of this event, and we hope that a large number of interested visitors will come to our stand to find out more about our company."

Sergey Gorkov,
Director General – Chairman
of the Board of Directors
at RUSGEOLOGY

"We are surprised at the number of participants and the number of people who are interested in the development of the oil and gas industry at the moment. Import substitution is now a priority, and it is important to exchange, create partnerships, and technology platforms. It can be done at events such as this exhibition at EXPOCENTRE Fairgrounds. Our thanks to the organisers not only for the opportunity to exhibit our equipment, which we manufacture,

but also for the opportunity to organise discussions and meetings, and sign contracts."

Tatiana Kolosunina,
Vice President for Marketing
at ElektroShield Samara

"Today we are very pleased to present our stand at this key event – Neftegaz 2022. This year we have many more meetings, despite the fact that last year's exhibition was frankly a success for us as well. Companies from the regions, our major clients – oil and gas production and processing companies – have come here. That is why we are happy."
