

The Neftegaz conference programme is an efficient platform to network with interested audiences

55% of the Neftegaz visitors attended the events of the conference programme.

Take advantage of the unique opportunity to speak to an industry audience, share your expert opinion and highlight your company's achievements.

Exhibitor feedback

Mansur Yanberdin,
Deputy Director General at Ufagidromash

"We come from the Republic of Bashkortostan. Neftegaz is a key exhibition for our company, as all our main customers come here and we can fruitfully discuss all our cooperation issues.

We have found new partners with whom we will also work well together. We have already signed many new agreements. People came from different regions, and neighbouring countries. The Neftegaz exhibition helps in finding new solutions and in strengthening cooperation."

Andrey Maslakov,
Marketing Director at Uralmash Oil and Gas Equipment Holding

"I represent an engineering company. We manufacture drilling rigs for onshore and offshore drilling. It is very interesting for our company to be here. At this exhibition, we meet our regular customers and find new ones.

To exhibit at such events is to talk about ourselves, our developments, our equipment, and help clients choose the proper equipment. I would like to thank the organisers of the exhibition for the excellent business atmosphere. In the last five years, this is the most ambitious trade show. There are a lot of new companies. We feel comfortable here. We will continue taking part in the exhibition."

Alexandra Lavrik,
Head of Marketing Department at Tobol

"Some people think that a trade show is too traditional a promotional tool and too expensive.

However, we are convinced that there is no other promotional tool more effective than a trade fair. At the Neftegaz exhibition, you can meet the biggest customers in Russia in this field and present yourself and your equipment in a worthy manner. The professional community monitors this market and its participants. It is believed that those who exhibit will shape the agenda in the professional environment over the next year. We would like to note a high level of organisation, a huge number of exhibitors from different countries, and a large number of visitors, with most of the visitors being the target audience. All our investments in a single exhibition day pay off a hundredfold, which I also wish to all the exhibitors."
